

Dadu Disaster Management Consortium (DDMC)

INTRODUCTION

Sindh, one of the provinces of Pakistan in Asia and the Pacific, is highly vulnerable to recurrent flood in 2020 due to heavy rains. Extreme topographical variations and unstable steep slopes combined with torrential rain during the monsoon season result in frequent floods in landslides. These disasters cause heavy loss of life, property and damage infrastructure, thereby disrupting the social and economic development of the country. In addition to these natural process, development activities and increasing population have caused further vulnerability and destabilization of land resources. Due to heavy rain fall and man-made infrastructure turned the rain down in flood in District Dadu of Sindh province. Further, the estimated water flow was four lac Cusic that produced 25 feet high tide near to Nai Gaj diversion band. Heavy water damaged the flood protection band (FP Band) near Johi Taluka (South Johi) and fully as well as partially damaged 11 Union Councils and more than 185 villages.

DISTRICT GOVERNMENT IMMEDIATE ACTION TAKEN

Deputy Commissioner Dadu conducted a meeting with the Local NGOs working in the district and announced Dadu Disaster Management Consortium (DDMC) of 06 experienced organizations. In addition he also shared that all the flood relief work will be implemented under the supervision of this Consortium.

DDMC RESPONSE/RAPID NEED ASSESSMENT

Consortium member organizations is working from last three to fifteen years in the district dadu more than 100+ male and female staff members along with 25000 direct beneficiaries with direct contact. DDMC member organizations jointly conducted the Rapid Need Assessment.
