Losses and Damages:

- Overall there was not observed a big loss but it's very big loss for owners of livestock some huts, Chwnra were damaged partially.

Whatever recorded on Social media or Print media are given below.

Taluka IslamKot:

- Two children drown in the river at Village Bhatian Ji Veri in Taluka Islam Kot. Drowning in rivers are very rare cases, due to high intensity of rain made accumulated high amount water in rivers and drown a children. It's general that rain of villages was with very high intensity but unfortunately it's not being measured at rural areas but it's only being measured of city that denotes whole area
- Three cows are being reported dead due to sky lightening stroked at vee Hingorja

Taluka Diplo:

- ✓ 13 goats are being reported dead due to lightening stroked over flock of goats at village Kournalyo

No any accident recorded in rest of talukas

Badin District:

District Badin Government has declared emergency and has directed to District level stakeholders not go for Eid holidays. During last 42 hours average rain fall is more than 200 mm. Different rural & urban low-lying parts of district inundates as it experiences uninterrupted torrential downpour continues the 24 hours.

According to the reports received from different sources, residents of different cities and towns including Bhugra Memon, Seerani, Behdmi, Ahmed Raju, Kadhan, Luwari Sharif, Tarai, Golarchi, Nindo, Shadi-large, Khoski and others cities and towns of district including various area of Badin were lashed with continued heavy rain on Friday and Saturday. The uninterrupted torrential downpour which started on Saturday morning has created a much difficult situation to the residents.

Meanwhile, the intermittent spell of rain would continue for the next 24 hours, the MET office had said. The different low-lying areas such as Seerani, Behdmi, Kadhan, Ahmed Raju, Shadi large and others were inundated with reports of water entering in homes.

Reportedly, the challenging conditions caused by the relentless rain which is now posing the threat to residents. People urge Govt authorities to assure the drainage of water as a prerequisite for the safe.

“Our teams are available round the clock to restore and handle any localized faults. We regret the inconvenience and are grateful for your patience in this regard,” district administration apprised.

MET office says it has recorded 115mm rain in the last 24 hours in Badin.

Precautionary measures:

The following precautionary measures are suggested to community for their safety purpose;
